

## Senai Incubator

The National Service for Industrial Apprenticeship - SENAI enjoys a complex network of units distributed in all states of Brazil. SENAI have been created in order to meet the needs of Brazilian industry and his capillarity allows access to all areas of the national territory. In the past 70 years, SENAI, has provided professional education for its population having stuffed the Brazilian industry with professionals and entrepreneurs who built the Brazilian industrial community. Brazilian national development policy points to the need of a strongest generation of innovative technology and pure innovation.

SENAI in the state of Parana, located in south of Brazil, near to Sao Paulo state is an institution that aims to promote educational courses and technological and innovation services and also supporting entrepreneurship.

- Created in 2011 Senai Incubator deliveries the following benefits:
- Parking, Restaurant and Security;
- Facilities for commercial team;
- Meetings rooms;
- Communications services (internet and phone);
- Executives and managers recruiting;
- Administrative Support;
- Networking with industries, Universities and R&D Centers;
- Managerial, Technical and Commercial Consultancy;
- Access to industrial market.

Investment: R\$788,00 (Brazilian Reais) per room. 2% of gross sales, 1 year after graduation, for a period equal to the time that the company was incubated.

For international companies Senai Incubator has developed a platform called *Soft Landing Program* specially designed to support their incoming into Brazilian and South American market.
