STATEMENT OF PURPOSE

6Health was developed on the premise of the Setswana culture of ‘botho, bonatla, boleng le botswerere’ to manufacture products that are globally compliant; with a passion to deliver best practice that disrupts the ‘norm’ in local manufacturing, and brings an understanding of regulatory standards in medical devices and pharmaceuticals.

COMPANY OVERVIEW

6Health (6H) is a citizen owned company led by seasoned professionals with over 25 years in business leadership. 6H is an empowerment driven project led by women to create employment that empowers Batswana and promotes diversity.

THE MANUFACTURING PLANT

6Health manufactures within an ISO 14644-1 Class 7 cleanroom and is licensed by the Botswana Medicines Regulatory Authority (BoMRA). The factory is ISO 13485 compliant.

PROCUREMENT REGISTRATION

6H is accredited by the Public Procurement and Asset Disposal Body (PPADB) as a procurement, distribution and manufacturing company to mitigate gaps in the supply chain. Our mandate is to contribute towards relieving some of the pressure on local health sector and reduce the high import bill on pharmaceutical and medical devices.

OUR TEAM

Founded by a Motswana who is highly experienced in SME development and business development. She is passionate about public health.

VISION

To lead the local production of internationally accredited medical devices and medicines for the local and export market.

MISSION

To protect generations through production and delivery of world class medicines and medical devices.

PHARMACEUTICAL

Wholesale and Distribution

We have a wide network to expeditiously source and deliver medicines in record time. A critical capability required to address the chronic shortage of medicines in our country. We have a portfolio with a diverse range of products to serve all medicines especially Vital and Essential medicines. We are a BoMRA licensed pharmaceutical wholesaler, licensed to import, export, and distribute drugs as follows:

Anti-psychotic	Anti-pulmonary	Analgesics
Anti-cancer	Antivirals	Immune suppressants
Anti-diabetic	Anti-hepatics	Genitourinary agents
Anti-cholesterol	Anti-infectives	Sympathomimetic agents
Anti-hypertensive	Antiemetics	Electrolytes, minerals, metals, and vitamins
Anti-coagulants	Creams	Lotions

Manufacturing

We are currently repurposing our ISO certified class 7 cleanroom to produce vital and essential drugs and creams.

Contract Production and Capacity

We offer contract production for our corporate clients allowing tailor made solutions to serve an array of our client needs. A solution that would enhance Botswana’s public health sector and the manufacturing sector.

Our pharmaceutical production facility replaces the mask production. Proposed production capacity is 16 million blisters a month.

MEDICAL DEVICES

Our factory produces both medical and surgical masks in accordance with EN14683:2019 under the Type IIR classification (Bacterial Filtration Efficiency (BFE) ≥98% and splash resistant) as outlined above. We meet this international standard and classification that is used to service hospitals and other medical environment. Our masks have 99.9% BFE according to the latest test results.

Manufacturing and distribution of accredited and certified disposable urology, thoracic, surgical and wound care medical devices.

Surgical and Medical Mask Specifications

These are 3 layer masks with a Bacterial Filtration Efficiency $\geq 98\%$ and are splash resistant to block any body fluids or any other fluids that may splash towards the mask. Both masks are EN14683:2019 compliant under the Type IIR classification (BFE $\geq 98\%$ and splash resistant).

Our 3-ply surgical masks are BoMRA accredited in accordance with the European standard EN14683:2019. Test results are available on request!

We also package the following certified products:

- Surgical and examination gloves: both latex and nitrile
- Catheters, Cannulas, Urine bags and tubes
- Disposable medical syringes and hypodermic needles
- Maternity pads
- Adult nappies and pull-ups
- Surgical and examination gloves
- Distribution of surgical blades, scalpels, knives, and sutures

STRATEGIC PARTNERS

Ministry of Health (MOH), Local Authorities, Botswana Investment and Trade Centre (BITC) and Local Enterprise Authority (LEA).

We continue to look for global strategic partnerships with other manufacturers to grow our portfolio. We are about to commence manufacturing of sutures.

SUPPORTING OUR COMMITMENT TO SUSTAINABLE DEVELOPMENT

We are committed to sustainable development, responsible stewardship of the natural environment and the protection of human health. Recognizing the environmental implications of our activities, we continuously strive to improve environmental performance by setting and reviewing measurable objectives.
