

Sophie's Choice

What is Greece to me?

It is the strong colours, the fuchsia, the cobalt blue. And all the different colours of the houses.

It is the colour of the salty sea and the lazy days on the beach where you eat your very pinkish red watermelon.

It is finding that perfect stone to throw in the sea, to make a sandwich as we say in Swedish.

It is the beautiful sunsets and the heat. It is my heritage and the pride of being Greek.

And of course, it is the food and the social vibe while eating

It is the history and the ancient gods, it is the old men sitting in the ouzeria drinking coffee.

I want to bring all of this into my products.

Sophie's choice is my choice and after working along time with my family company, I am trying my own wings.

I am going to sell jeweleries: bracelets, earrings, necklaces and rings. Made out of semiprecious stones and glass pearls or sweet water pearls.

I will be in the middle range price as there is a hole in the market there.

I am also now looking for suppliers in Greece to be able to produce toiletry bags, makeup bags and jewelry accessories (boxes, pouches)
